github.com/Shucrates

Profile

MSc Computer Science student at UCD (expected September 2027) with a BE in AI and Machine Learning (CGPA 8.97/10). Full-stack and frontend developer who has shipped production Next.js applications for paying clients and designs the interfaces in Figma. Also build ML models in Python.

Work authorisation: Stamp 2 (Ireland), can work part-time immediately. **Availability:** full-time internship from April/May 2027 through the MSc internship term.

Education

University College Dublin, MSc Computer Science (Negotiated Learning) Sept 2026 – Sept 2027

- **Modules:** Software Engineering, Machine Learning, Multi-Agent Systems, Human-Centred AI, Human-Computer Interaction.

SIES Graduate School of Technology, BE in AI and Machine Learning 2022 – 2026

- **CGPA:** 8.97/10 | **Coursework:** Computer Vision, NLP, Data Visualisation, Web Technologies

Experience

Freelance Full-Stack Developer – Remote Dec 2025 – Sept 2026

- **Rudra Cargo & Transport:** Sole developer of a platform replacing a logistics company's paper lorry receipts (LRs), which were causing losses through poor bookkeeping and untracked cash. Built a digital LR and bill generator, a database of LRs, bills and quotations, payment-type tracking per LR, a separate cash log, and admin/staff roles with a full audit log of staff actions. *Next.js, Tailwind CSS, Prisma, PostgreSQL (Neon), Vercel.*
- **IIMSC** (ii-msc.com): Delivered a live, paid multilingual recruitment platform: separate employer and candidate portals, i18n across 4 languages, industry landing pages; deployed to client-managed cPanel. *Next.js, Tailwind CSS.*
- **Su-design9** (su-design9.in): Helped build an online presence for an interior design firm; built an image carousel to showcase their projects.

UI/UX & Frontend Design Intern, Norxio (Fintech) – UK (Remote) May 2026 – Aug 2026

- Designed the product dashboard and the website landing page in Figma, iterating on feedback with the UK team.

Graphic & Web Designer Intern, Prepbook (Edtech) – Mumbai June 2025 – Aug 2025

- Redesigned the website and contributed to the learner web app, improving navigation, accessibility, and usability.

Python Developer Intern, Ion Chemicals – Navi Mumbai Jan 2025 – Apr 2025

- Built and optimised a Python/OpenCV anomaly-detection model for fluid and gas flow in industrial pipelines using real-time monitoring data; integrated it into existing monitoring workflows with engineers.

Projects

Praman – Multilingual WhatsApp Banking Assistant *(Team of 4)* Aug 2026

Top 12, Sarvam AI Builders Hackathon, Bengaluru (∼100 finalists from ∼6,000 registrations)

- Banking and loan assistant for low-literacy rural customers in 11 Indian regional languages (voice or text), with a document explainer for scanned bank letters. **My role:** frontend, dashboard, and final demo and pitch.

SeaGuard – Fishermen Safety & Navigation App *(Team of 5)* Sep 2025

- Mobile-first maritime safety app (weather, navigation, SOS alerts, multilingual LLM support); **won HackCelestial 2.0** and selected for a science exhibition under the Chairman of ISRO. *React Native (Expo), FastAPI, Twilio, Sarvam AI, Figma.* [GitHub]

AutoPharmaX – Cancer Drug Response Prediction *(Team of 4)* July 2025

- ML pipeline predicting drug response (LN(IC50)) from GDSC data; best XGBoost model served via a Streamlit app. *Python, pandas, NumPy, scikit-learn, XGBoost, LightGBM.* [GitHub]

Skills

Programming: JavaScript, Python, HTML, CSS

Web & Backend: Next.js, React, React Native (Expo), Tailwind CSS, i18n, FastAPI, Prisma, PostgreSQL, SQLite

ML/AI: PyTorch, scikit-learn, XGBoost, LightGBM, OpenCV, YOLOv8, NumPy, pandas, Streamlit

Tools: Git/GitHub, Claude Code, Google Antigravity, Vercel, cPanel, Figma

Professional: Code review, requirements gathering, technical demos, team leadership | **Spoken:** English, Hindi, Marathi

Research & Leadership

- **Research –** ***Attention Enhanced Speaker Representation with Contrastive Learning*****:** Presented at ICCUBEA 2025 (PCCOE Pune). Transformer speaker encoder trained with contrastive (GE2E) loss; lower error rates and faster inference than LSTM baselines.
- **Joint Technical Secretary, Technical Team, SIES GST (2023–2025):** Coordinated hackathons, tech fests and workshops and guided student participants.
